Figures

- 1.1: Ideas of village development in Borobudur; Jack Priyana (2003) and local people
- 2.1: Relationships in cultural landscape – physical and social/cultural aspects
- 2.2: Value systems of a certain area with several relationships
- 2.3: Sacred Sites and Pilgrimage Routes in the Kii Mountain Range – topographic features of the pilgrimage routes (Kumano–Nakahechi route)
- 2.4: Pilgrimage route and village areas – outstanding and locally evaluated relationships
- 2.5: Village A: (left) map of landscape composition of land and buildings classified according to use; (right) closely related properties for religious context of the pilgrimage route
- 2.6: Borobudur value system
- 2.7: Sample of relationships in the Kedu Plain context
- 2.8: Locations of irrigation waterways and irrigated fields since medieval times
- 2.9: Typical plan of traditional houses until around 1960
- 2.10: Cultural landscape with two different time axis systems
- 2.11: Cultural landscape formulation through accumulation of time
- 2.12: Borobudur within the Kedu Plain context time layers
- 2.13: Value system and evolutive conservation – examining the change of relationship A with reference to other relationships
- 2.14: Four-dimensional scheme for cultural landscape as a whole
- 2.15: Cultural Landscape Field School in Kii Mountain Range, 2010
- 3.1: Borobudur area with villages as cultural landscapes
- 3.2: The integration between landscape and culture
- 3.3: Ecology boundary of the Borobudur basin
- 3.4: Landform map of the Borobudur basin
- 3.5: Lithology map of the Borobudur basin
- 3.6: Slopes map of the Borobudur area
- 3.7: Soil map of the Borobudur basin
- 3.8: Water balance of the Borobudur basin
- 3.9: Water consumption levels of the Borobudur basin
- 3.10: The ancient vegetation in Borobudur area
- 3.11: The use of vegetation for various economic purposes
- 3.12: Land use of the Borobudur basin
- 3.13: Digital relief map of Borobudur and the surrounding plains

- 3.14: Last puddle of the Borobudur lake trail that has undergone the process of drying
- 3.15: Lithology log of drilling in Sileng River showing the dominance of black claystone with volcanic sandstone insertion and conglomeratic sandstones
- 3.16: Geomorphological map of Borobudur
- 3.17: The appearance of the pollen photo as lake environment pointer, taken in black claystone samples in Progo river
- 3.18: Block diagram of the surface reconstruction of Borobudur lake at 20,000 YBP
- 3.19: Block diagram of the surface reconstruction of Borobudur lake in 4310 YBP
- 3.20: Block diagram of the surface reconstruction of Borobudur lake at 660 YBP
- 3.21: Borobudur conservation zoning system based on JICA Master Plan, 1979
- 3.22: Borobudur area as cultural landscape organized by three different management parties
- 3.23: Spatial planning system in Indonesia
- 3.24: Land use map of the Borobudur National Strategic Area
- 3.25: A mandala is achieved when there is a balance in the management of potentials, local wisdom, and the spatial plan
- 3.26: Management of spatial plan: sub-district planning is the result of village and hamlet planning
- 3.27: Planning process for Borobudur
- 3.28: Map of Borobudur Temple Compounds, consisting of Borobudur, Pawon and Mendut temples in a straight axis
- 3.29: The architecture of Borobudur Temple
- 3.30: Map of villages and their potentials and attractions
- 4.1: Community and related entities in Borobudur
- 4.2: Candirejo village site context
- 4.3: Community system in Candirejo village
- 4.4: The realization process of Community Based Ecotourism in Candirejo village
- 4.5: Vegetation changes in Kedung Ombo and Mangundadi hamlets, Candirejo village
- 4.6: Borobudur Tourism Park and the PSJJ site
- 4.7: Timeline analysis of citizens' organizations in Borobudur Sub-district
- 4.8: The relationship of organizations in Borobudur
- 4.9: Signage showing attractions that can be visited during village tours
- 4.10: Routes of village tours
- 4.11: Impacts of changes
- 4.12: Scheme of community-based conservation for cultural landscape through rural tourism
- 4.13: Facilities of an ecotourism village
- 4.14: Potential village as ecotourism village
- 4.15: Local social media for Candirejo
- 4.16: Examples of Tatak's presentations
- 4.17: Location of Maitan hamlet, Borobudur village
- 4.18: Map of land use and detailed tour itinerary in Borobudur village, focused in Maitan hamlet
- 5.1: Final presentation slides of Wringinputih village by BFS 2004 group
- 5.2: Final presentation slides and architectural mapping of Candirejo village by BFS 2004 group

- 5.3: Final presentation slides, landscape elements of Giritengah village, by BFS 2004 group
- 5.4: Final presentation slides of river analysis by Mr Hashimoto, a participant from Japan
- 5.5: Final presentation slides of Karanganyar village analysis by BFS 2005 group
- 5.6: Final presentations slides of region, scale and facade observation by BFS 2005 group
- 5.7: Posters of case study and physical design guidelines – Klipoh
- 5.8: Final presentation slides, analysis and evaluation for Klipoh pottery village, BFS 2006
- 5.9: Final presentation slides, process, and techniques of cultural landscape conservation report, BFS 2006
- 5.10: Final presentation slides by Macro Scale Group, BFS 2007
- 5.11: Final presentation slides by Micro Scale Group, BFS 2007
- 5.12: Final presentation slides by Environment Group, BFS 2012
- 5.13: Final presentation slides by Spatial Planning Group, BFS 2012
- 5.14: Final presentation slides by Tourism Group, BFS 2012
- 5.15: Final presentation slides by Architecture Group, BFS 2012
- 5.16: Final presentation slides by Regional Group, BFS 2013
- 5.17: Final presentation slides by Architecture Group, BFS 2013
- 5.18: Final presentation slides by Temple Group, BFS 2013
- 5.19: Final presentation slides by Village Group, BFS 2013
- 6.1: Various value systems of cultural landscape and the identification of outstanding world-class heritage value
- 6.2: The village location and the whole context of the Kedu Plain

Plates

- 1.1: The World Cultural Landscape of Bali Province
- 1.2: Cities along the Danube River
- 1.3: Pilgrimage in the complex of Okunoin cemetery, Koyasan city, Kii Mountains, Wakayama, Japan
- 1.4: Pilgrimage route, ancient Kumano street; souvenir shops operating from heritage houses have emerged since this region was declared a world heritage site
- 1.5: Characteristics of the visual typology in the Wachau Valley: remains of an ancient castle on the hill, medieval architecture, and vineyards
- 1.6: Pedestrians in a medieval city in the Wachau Valley
- 1.7: The world cultural heritage of Melk Cathedral built on a rock in the hill city of Melk, one of the cities in the Wachau Valley
- 1.8: The city center of Krems
- 1.9: Pilgrimage route and the Toganoki tea house
- 1.10: Most of the pilgrimage routes are in hilly sites that pass various temples; bamboo sticks prepared by the local community are freely available
- 1.11: The pilgrimage routes traverse the hills before arriving in an ancient Kumano street
- 1.12: Mr. Takafumi Kinoshita, after retirement, dedicated his life as local storytellers (*Katari Be-san*) in the villages that are passed by the pilgrimage routes; this activity began long before the modern-day inscriptions
- 1.13: Borobudur Temple as a World Heritage Site
- 1.14: Punthuk Setumbu, the place to watch the Borobudur sunrise, which is managed by the local communities
- 1.15: Borobudur Village Tour organized by local communities
- 2.1: Case study areas for cultural landscapes: (from top row) 1 Borobudur in the Kedu Plain context; 2 Sacred Sites and Pilgrimage Routes in the Kii Mountain Range; 3 Hineno-sho Ogi no Nouson Keikan (Ogi agricultural village landscape in Hineno-sho manor in medieval Japan); 4 Yusu-Mizugaura no Danbata (Terrace Fields in Yusu-Mizugaura)
- 2.2: Traditional house and flower arrangement expressing the cultural landscape of the village area; Chikatsuyu village, Kii Mountain Range
- 2.3: Beautiful villages in the Kedu Plain context of Borobudur – where we should recognize and identify the diverse evaluation
- 2.4: Ogi village – river terrace topography and land use distribution

Plates

xiii

- 2.5: Ogi village – traditional houses constructed in modern and contemporary times
- 2.6: The material and structure of the waterways – not the structure itself but the three-dimensional location of the waterways – are significant and originated in medieval times
- 2.7: Types of traditional houses and common characteristics: (top row from left) oldest type till around 1910, typical half two-story till 1960, typical flat till 1960; (bottom row from left) contemporary type with two stories, common characteristics from oldest type till contemporary times
- 2.8: Terrace fields of Yusu-Mizugaura, and stone wall with small voids that require frequent maintenance
- 3.1: (left) a farmer uses cows to plow the soil; (right) a corn field and some people serving food
- 3.2: (a) Terraced *sawah*; (b) tobacco plantation
- 3.3: (a) Traditional technique to plow the soil with buffalo; (b) using *ani-ani* during harvest time
- 3.4: Handicraft products: (a) bamboo baskets, (b) gypsum casts, (c) bamboo carving, (d) stone carving, (e) pottery, and (f) vermicelli making
- 3.5: *Dayakan* dance
- 3.6: Traditional architecture of the village environment
- 3.7: (top left) Mount Merapi; (top right) Elo River; (bottom left) Menoreh Mountain Range; (bottom right) steep riverbanks
- 3.8: (top left and bottom right) Houses with modern architecture; (top right) restaurant; (bottom left) Buddhist *vihara*
- 3.9: The appearance of a former lake plains landform in South Borobudur
- 3.10: Borobudur lake sediments black claystone outcrop from the Quaternary age (location: Sileng River, Soropadan village)
- 3.11: The utilization of former lake plains for agriculture and fisheries
- 3.12: Rafting at Elo River, a part of the ecosystem of the Borobudur lake
- 3.13: Borobudur view as part of cultural landscape – now the hotel's best view
- 3.14: View of the sunrise from Punthuk Setumbu, which gives an impression of Borobudur and its surrounding as a cultural landscape
- 3.15: The symbolism of Borobudur Temple: (left) Borobudur Temple as a mountain/*Mahameru*; (right) Borobudur Temple is like a lotus flower floating on the lake
- 3.16: Aerial view of Borobudur Temple
- 3.17: Village *andong* tour
- 4.1: Candirejo village: (clockwise from top left) village greenery; a house used for homestays; view from a hill top; yards in the settlement area
- 4.2: Cultural events in Candirejo village
- 4.3: Village cooperative's annual meeting (29 March 2008)
- 4.4: Mass tourism and crowded street vendors; (top) during peak season there are many visitors to the temple and buses park on the road when the parking area is full; (bottom) street vendors aggressively sell souvenirs, causing some discomfort to visitors
- 4.5: Rural tourism activities: village tour by *andong* (left); traditional festival (right)
- 4.6: Traditional houses are used for homestay accommodation in Candirejo
- 4.7: Natural resources in Candirejo

- 4.8: Local people in Candirejo act as guides
 4.9: Tourists in Candirejo
 4.10: BFS participants enjoying Candirejo ecotourism
 4.11: Views of the sunrise and Borobudur Temple from Punthuk Setumbu
 4.12: Views from Kedok
 4.13: Views from Kapling Janan
 4.14: Views from Maitan hamlet
 4.15: Tourism activities in Maitan hamlet; (clockwise from top left) riding *andong* for village sightseeing, visiting a traditional house, making bamboo craft boxes, homemade bamboo craft boxes
 4.16: View to Borobudur Temple from the top of Bakal Hill (Gunung Bakal) before and after the development of a new hilltop resort
 4.17: The Plataran Resort Hotel is built on the top of Bakal Hill
 5.1: Pottery-making process in Karanganyar village
 5.2: Asu Temple
 5.3: Lumbung Temple renovations after the Mount Merapi eruption in 2010
 5.4: Pendem Temple
 5.5: Umbul Temple
 5.6: Selogriyo Temple and the landscape to the temple
 5.7: Ketep Pass
 5.8: BFS 2004; (left) discussion, (right) field survey
 5.9: BFS 2005; (left) heritage trail, (right) field survey
 5.10: BFS 2006; (left) night school, (right) field survey
 5.11: BFS 2007; (left) discussion, (right) field survey
 5.12: BFS 2012; (left) Candirejo village, (right) visiting Borobudur
 5.13: BFS 2013; (left) visiting Punthuk Setumbu Hill, (right) visiting Borobudur
 6.1: Tourists gathered in a village to watch the sunrise

Tables

- 3.1: Four periods of the development of Borobudur settlements and agriculture activity
 3.2: Types of craft and home industry
 3.3: Village traditions that still exist
 3.4: Traditional arts of the village community that still exist
 3.5: Changes and continuity of cultural landscape elements of Borobudur villages
 3.6: The demand for water in the Borobudur area

 4.1: Candirejo village residents' roles and participation
 4.2: Borobudur visitors
 4.3: Profile of citizen's organizations in Borobudur Sub-district
 4.4: Socioeconomic condition for timeline analysis
 4.5: Classification of citizens' organizations
 4.6: Timeline of rural tourism progress in Borobudur Sub-district
 5.1: Borobudur Field School (BFS) time schedules
 5.2: Borobudur Field School participants

Authors' Profiles

(in order of writing, *Editor = General editors)

Laretna T. Adishakti (*Editor)

Lecturer, Chairperson of Center for Heritage Conservation (CHC), Department of Architecture and Planning, Faculty of Engineering, Universitas Gadjah Mada, Yogyakarta, Indonesia (Chapter 1, Chapter 6)

Kiyoko Kanki (*Editor)

Professor, Department of Architecture and Architectural Engineering, Graduate school of Engineering, Kyoto University, Kyoto, Japan (Introduction, Chapter 2, Chapter 6)

Dwita Hadi Rahmi

Lecturer, Department of Architecture and Planning, Faculty of Engineering, Universitas Gadjah Mada, Yogyakarta, Indonesia (First section of Chapter 3)

Amiluhur Soeroso

Researcher, Center for Heritage Conservation (CHC), Department of Architecture and Planning, Faculty of Engineering, Universitas Gadjah Mada, Yogyakarta, Indonesia (Second section of Chapter 3)

Helmy Murwanto

Lecturer, Department of Geology, Faculty of Mineral Technology, the National Development University (UPN) Veteran, Yogyakarta, Indonesia (Third section of Chapter 3)

Ananta Purwoarminta

Researcher, Research Center for Geotechnology, Indonesian Institute of Sciences (LIPI), Bandung, Indonesia (Third section of Chapter 3)

Punto Wijayanto

Lecturer, Department of Architecture, University of Technology Yogyakarta (UTY), Yogyakarta, Indonesia (Fourth section of Chapter 3)

Jack Priyana

Borobudur Tourism Network (JAKER), Borobudur, Magelang, Indonesia (Fifth section of

Authors' Profiles

xvii

Chapter 3)

Titin Fatimah(*Editor)

Lecturer, Department of Architecture, Faculty of Engineering, Universitas Tarumanagara (UNTAR), Jakarta, Indonesia (First section of Chapter 4, Chapter 6)

Wahyu Utami

Lecturer, Department of Architecture, University of North Sumatera (USU), Medan, Indonesia (Second section of Chapter 4)

Tatak Sariawan

Chairperson, Village Tourism Cooperative of Candirejo, Borobudur, Magelang, Indonesia (Second section of Chapter 4)

Suparno

Professional Photographer (previously Staff of Borobudur Conservation Office), Borobudur, Magelang, Indonesia (Third section of Chapter 4)

Kusumaningdyah Nurul Handayani

Lecturer, Department of Architecture, Sebelas Maret University (UNS), Surakarta, Indonesia (Third section of Chapter 4)

Muhammad Hatta

Borobudur Tourism Network (JAKER), Borobudur, Magelang, Indonesia (Fourth section of Chapter 4)

Sinta Carolina

Staff, Center for Heritage Conservation (CHC), Department of Architecture and Planning, Faculty of Engineering, Universitas Gadjah Mada, Yogyakarta, Indonesia (Chapter 5)

Yeny Paulina Leibo

Staff, Center for Heritage Conservation (CHC), Department of Architecture and Planning, Faculty of Engineering, Universitas Gadjah Mada, Yogyakarta, Indonesia (Chapter 5)

The precise roles of authors in their collaborated activities are described in Introduction.
